

## THE MODERN HOUSE 现代之家

设计师: Anna Matuszewska - Janina  
设计公司: KREACJA PRZESTRZENI  
项目地点: 波兰  
项目面积: 300平方米

It is a arduous task that arranging the interior of a large, impressive residence locate in a high - class residential area. The investors, who bought a classic, manor-like house design, unanimously decided that the interior should be - contrary to the outside of the building - modern and spacious, without redundant knick-knacks, exaggerated forms or 'heavy' furniture.

In this way, the designer's main challenge is to unite the two opposite extremes. The then-new interior decoration fashion for bold compositions of baroque crystal chandeliers with extremely ascetic furniture shapes and materials appeared on the designer's way, becoming an unlimited source of inspiration.

The flooring on the ground floor is made of polished cream-colored gres tiles, while on the stairs and first floor - of merbau wood. For designer's general satisfaction, they also added some well known icons/pearls - Ghost chair, Axor Starck X tap, Bisazza mosaic on the kitchen wall.
